5. Review of Past Events at the Board of Supervisors, Board of Appeals and Historic Preservation Commission

Veronica Flores:

Land Use Committee

- 210352 Initiating Landmark Designation - Diego Rivera Mural "The Allegory of California." Sponsor: Peskin. Staff: LaValley.
- The Land Use and Transportation Committee heard one item this week related to the initiation to Landmark Diego Rivera's fresco, titled "The Allegory of California." This was painted in 1931 and is located within the grand stairwell at 155 Sansome Street. The Committee sent unanimous positive recommendation to the full Board of Supervisors for consideration, and there were no public comments for this item.

Full Board

- 210064 Planning Code - Landmark Designation - 1830 Sutter Street (aka Japanese YWCA/Issei Women's Building) Sponsors: Preston; Mandelman, Peskin and Chan. Staff: McMillen. PASSED Second Read
- 210275 Hearing - Appeal of Determination of Exemption From Environmental Review - Proposed 2651-2653 Octavia Street Project. APPEAL DENIED
- 210397 Approval of a 90-Day Extension for Planning Commission Review of "Review of Large Residence Developments" (File No. 210116). Sponsor: Mandelman. Staff: Merlone. ADOPTED
- The Board also heard the appeal of the CatEx that was issued for a project at 2651-2653 Octavia Street. The subject property is a 3-story, 2-family residence located next to the Golden Gate Valley Library, which is a Category A resource and also one of the 7 Carnegie libraries in the city. The proposal includes vertical and horizontal additions, and would not result in any net new dwellings.

- The Planning Commission heard a DR for this project on February 6, 2020, during which time you denied the DR request. The CatEx dated September 5, 2019 was then appealed to the BOS. At their July 28, 2020 hearing, the Board overturned the CatEx and directed the Planning Department to further analyze the project's impacts on the indoor light levels inside the library's reading room. The Department conducted additional analysis and issued a new CatEx on January 27th, earlier this year.
- The Planning Commission then held another DR hearing on February 4th, during which time the 2019 DR request was denied. This additional DR hearing was required because the first DR request relied on the 2019 CatEx, which then became void after Board overturned that initial CEQA appeal.
- For this second CEQA appeal, the appellant argued that the project would adversely impact the indoor light level of the library's reading room, thus resulting in a significant impact under CEQA. The appellant's primary arguments were that the Department may not issue a CatEx when the project may result in an adverse impact and also that the Board should apply the fair argument test, not the substantial evidence test. When reviewing the Department's CEQA determination regarding indoor light level as a character-defining feature of the library.
- The Department clarified that CEQA does allow for CatEx to be issued for projects that have less-than-significant impacts on a historic resource, which was the case here. The Department's determination was based on substantial evidence in the record that the daylight level inside the library's reading room is not a character-defining feature of the library. Also of note, indoor light level is not identified as a character-defining feature for any of the other Carnegie libraries in San Francisco.
- During the public hearing, members of the public expressed concerns that the project would adversely impact the historic character of the library, and also that the project would block views from the neighboring properties. Additionally, there was a caller who commended Ms. Gibson's efforts on efficiently performing environmental review.
- Supervisor Stefani opined that the Department correctly determined that the project is categorically exempt, and also that the Department adequately addressed the Board's direction to analyze the project's impact on the indoor light level of the library's reading room.
- Supervisor Peskin also posed the question of why the Department issued a CatEx, instead of preparing an Initial Study.
- After discussion, the Board ultimately unanimously upheld the second CatEx and rejected the appeal.

Jonas P. Ionin, Commission Secretary:

There were no items of interest to the Planning Commission related to the Board of Appeals. The Historic Preservation Commission did briefly meet yesterday to consider one item, that is on today's agenda for your consideration as well, and adopted a recommendation for approval with staff's modifications related to the Small Business Planning Code amendment.

E. GENERAL PUBLIC COMMENT

HOUSING INVENTORY REPORT, HOUSING BALANCE REPORT, AND UPDATE ON MONITORING REPORTS – **Informational Presentation** – Staff will present the 2020 Housing Inventory, which describes San Francisco's housing production trends on new housing construction, demolitions and alterations as well as progress on meeting the City's regional housing needs allocation (RHNA) for different income levels. Findings of the State-mandated annual Housing Element Progress Report on how housing production trends advance the Housing Element's policies and goals will also be presented. Housing Balance Report Nos. 11 and 12, which cover the ten-year period from July 1, 2010 through June 30, 2020, and January 1, 2011 through December 31, 2020, respectively, will also be presented. The Housing Balance Report monitors the housing balance between market rate and new affordable housing production. An update will also be provided on the estimated completion of various monitoring reports.

HOUSING ELEMENT 2022 UPDATE – Informational Presentation – The Planning Department is launching the Phase II of outreach and engagement for the Housing Element of the General Plan. This update is San Francisco's first housing plan, centered in racial and social equity. The update is due late 2022 and will include policies and programs that express the city's collective vision and values for the future of housing in San Francisco. This plan will identify priorities for decision makers, guide resource allocation for housing programs and services, and define how and where the city should create new homes for San Franciscans, or those who want to call this city home. This plan will need to accommodate the creation of 82,000 units by 2031, a target set by State and Regional Agencies that has been tripled compared to the city's current targets.

TRANSITIONING THE SHARED SPACES TO A PERMANENT CITY PROGRAM – Informational Presentation – The Shared Spaces Program has been a critical part of the City's crisis response strategy to sustain the locally owned small business sector in San Francisco. In addition to stabilizing neighborhood commercial corridors, merchants, and jobs, the Program has contributed positively to walkability, social and psychological wellbeing during the COVID-19 pandemic. Due to widespread success throughout the City's neighborhoods, on Friday, March 12, Mayor Breed announced legislation to transition Shared Spaces from an emergency response into a permanent program through and after the pandemic. The legislation was officially introduced on Tuesday, March 16. The permanent version of the program will carry forward the streamlined permit process; encourage arts and culture; and better balance commercial activities with public space and transportation demands of the recovering economy.
